

Wenlin Chen

PhD Student in
Machine Learning

Name: Wenlin Chen

Occupation: PhD Student in Machine Learning

Institutions: University of Cambridge & Max Planck Institute for Intelligent Systems

Address: St Edmund's College, Cambridge CB3 0BN, United Kingdom

Email: wc337@cam.ac.uk

Website: <https://wenlin-chen.github.io/>

(Updated June 28, 2023)

Education

University of Cambridge / PhD in Machine Learning

October 2021 - Present, Cambridge, England, United Kingdom

Program: Cambridge-Tübingen PhD Fellowship in Machine Learning, affiliated with University of Cambridge (Machine Learning Group, Computational and Biological Learning Lab, Department of Engineering) and Max Planck Institute for Intelligent Systems (Department of Empirical Inference).

Supervisors: Prof José Miguel Hernández-Lobato, Prof Bernhard Schölkopf, and Dr Hong Ge.

Research Interests: Representation Learning, Multi-task/Meta Learning, Generative Modeling, Probabilistic Modeling, Causal Modeling, AI for Science, Optimization.

University of Cambridge / MPhil in Machine Learning and Machine Intelligence

October 2020 - September 2021, Cambridge, England, United Kingdom

Grade: Distinction.

Thesis: Causal Representation Learning for Latent Space Optimization.

University of Manchester / BSc (Hons) in Mathematics

September 2018 - June 2020, Manchester, England, United Kingdom

Grade: First Class Honors (93.4/100, top 1.5%).

Experience

University of Cambridge / Doctoral Fellow

October 2021 - Present, Cambridge, England, United Kingdom

Cambridge-Tübingen PhD Fellow in Machine Learning.

Max Planck Institute for Intelligent Systems / Doctoral Fellow

October 2021 - Present, Tübingen, Baden-Württemberg, Germany

Cambridge-Tübingen PhD Fellow in Machine Learning.

University of Cambridge / Research Assistant

January 2021 - September 2021, Cambridge, England, United Kingdom

Probabilistic and Causal Machine Learning.

King Abdullah University of Science and Technology / Research Intern

August 2020 - September 2020, Remote

Federated Learning and Distributed Optimization.

University of Manchester / Research Assistant

September 2018 - June 2020, Manchester, England, United Kingdom

Ensemble Deep Learning.

Imagination Technologies / Research Engineer Intern

June 2019 - August 2019, Kings Langley, England, United Kingdom

Deep Learning on Edge Devices.

Awards

Cambridge University Engineering Department PhD Studentship (May 2021)

Cambridge Trust Scholarship (April 2021)

Cambridge-Tübingen PhD Fellowship in Machine Learning (February 2021)

The Royal Statistical Society Prize (July 2020)

International Mathematics Scholarship (August 2019)

Service

Reviewer, The Thirty-seventh Conference on Neural Information Processing Systems (NeurIPS 2023), 2023.

Program Committee Member and Reviewer, ICML 2023 Workshop on Spurious Correlations, Invariance and Stability (SCIS), 2023.

Reviewer, The Fortieth International Conference on Machine Learning (ICML 2023), 2023.

Talks

Identifiable Deep Generative Models for Causal Representation Learning, Reading Group, Machine Learning Group, University of Cambridge, March 2023.

Meta-learning Adaptive Deep Kernel Gaussian Processes for Molecular Property Prediction, Research Talk, Computational and Biological Learning Lab, University of Cambridge, March 2023.

Meta-learning Adaptive Deep Kernel Gaussian Processes for Molecular Property Prediction, Invited Talk, Computational Statistics and Machine Learning Reading Group, Imperial College London, November 2022.

Meta-learning Adaptive Deep Kernel Gaussian Processes for Molecular Property Prediction, Invited Talk, Workshop on Frontiers in Machine Learning and Decision Making, Huawei R&D UK, November 2022.

Modified Differential Method of Multipliers: How Can We Make Machine Learning Algorithms Tunable?, Tea Talk, Computational and Biological Learning Lab, University of Cambridge, May 2022.

Diffusion and Score-based Generative Models, Reading Group, Machine Learning Group, University of Cambridge, January 2022.

Causal Representation Learning for Latent Space Optimization, Invited Talk, Cambridge-Tübingen Machine Learning Symposium, Remote, January 2022.

Causal Representation Learning for Latent Space Optimization, Research Review Talk, MPhil in Machine Learning and Machine Intelligence, University of Cambridge, June 2021.

To Ensemble or Not Ensemble: When Does End-to-End Training Fail?, Interview Talk, Cambridge-Tübingen Machine Learning Symposium, Remote, January 2021.

Teaching

Co-supervisor, MEng Project, University of Cambridge, Lent Term 2023 - Easter Term 2023.

Co-supervisor, Visiting PhD Student Project, University of Cambridge, Michaelmas Term 2022 - Research Term 2023.

Supervisor, MLMI1 Introduction to Machine Learning (MPhil Module), University of Cambridge, Michaelmas Term 2022.

Co-supervisor, MEng Summer Project, University of Cambridge, Research Term 2022.

Demonstrator, 4F10 Deep Learning and Structured Data (MEng Module), University of Cambridge, Michaelmas Term 2021 - Research Term 2022.
